THE NEW ENGLISH PERFUME Crab-Apple Blossoms.

MALUS CORONARIA. Regd.

What London and New York say of it.

"Chief among the fashionable scents is 'Crab-Apple Blossoms,' a delicate perfume of highest quality; one of the choicest ever produced."—*Court Journal*.

"It would not be possible to conceive of a more delicate and delightful perfume than the 'Crab-Apple Blossoms,' which is put up by the Crown Perfumery Company, of London. It has the aroma of Spring in it, and one could use it for a lifetime and never tire of it."—*New York Observer*.
"It is the daintiest and most delicate of perfumes, and in a few months has superseded all others in the boudoirs of the grandes dames of London, Paris and New York."—*The Argonaut*.

Put up in 1, 2, 3 and 4 ounce bottles.

THE CROWN REGD. LAVENDER SALTS

"Our readers who are in the habit of purchasing that delicious perfume, 'Crab-Apple Blossoms,' of the Crown Perfumery Company, should procure also a bottle of their 'Invigorating Lavender Salts.' There is no more agreeable cure for headache, and by leaving the stopper out for a few moments a delightful perfume escapes, which freshens and purifies the air most enjoyably."—*Le Follet*.

33 Per Cent. SAVING

IN GAS BILLS.

Enormous gas bills result from excessive gas pressure. When gas "blows" at the burner, it is being wasted *pro rata*. The higher the pressure, the less the illumination and the larger the gas bill.

The automatic action of Governor attached to each individual meter permits the consumer to control his own pressure, regardless of the Gas Company, and obligates him to pay for only the minimum supply of Gas required for economic service.

Secures a steady and increased illumination, resulting from regular pressure and consequent perfect combustion of the gases, thus insuring a pure and healthful atmosphere.

Prevents the disagreeable whistling, blowing and smoking of burners, and consequent injury to ceilings, paintings or drapery.

Greatly reduces "Fire Insurance Risks" incident to "Streaming" Gas Jets and Burners, and avoids the frequent danger and expense of broken globes.

The Governor costs consumer practically nothing, as the saving in Gas Bills (where full capacity of meter is used) will rebate cost of Governor in every three or four months' service, and in large buildings every sixty days, thus returning from 200 to 600 per cent. annual dividends upon the investment (or cost of machine).

Over 10,000 in service. Every machine warranted.

Exclusive City or State Agencies awarded.

FEEDING THE MULTITUDE.

"Careless their merits or their faults to scan,
His pity gave ere charity began." —*Deserted Village.*

IN the sixth chapter of St. John we read how, at the suggestion of His disciple Andrew, Jesus miraculously fed the multitude beside the Sea of Galilee. Hence the name "St. Andrew's Coffee Stands," as adopted by Mrs. J. M. Lamadrid for her unique and now deservedly famous charitable enterprise. Mrs. Lamadrid first began this work in New York city in 1886; and during the last five years she has daily fed the multitude—not miraculously, indeed, but with a direct practical and persevering generosity which is sufficiently rare in these times to be regarded with wondering admiration.

The St. Andrew Coffee Stands are open for business daily from 5 o'clock A. M. until 7 P. M.; on Sundays from 7 to 10 A. M., and from 3 to 5 P. M., at the following locations:

ONE MINUTE IN PREPARATION.

I am now prepared to furnish the M. D. STEVENS Imperoyal Prepared New Process Wheat and Buckwheat Flour (being pure and free from Alum, Terra Alba or any and every injurious ingredient) to the trade, in any quantity, having enlarged my facilities for manufacturing and preparing to meet the steadily increasing demand.

Its perfect purity and the uniform lightness of the Bread or Biscuit make it largely sought after by Dyspeptics and those suffering from every form of Indigestion. Can be used for all kinds of Pastry, Bread, Biscuit, Griddle Cakes, etc., thus making it a necessity in every household, requiring but one minute in preparation, without salt, baking powder or yeast, and producing about thirty pounds more bread to the barrel than ordinary flour. No lady can afford to be without it, and its value for Steamships, Dining Cars, Yachting and Camping Parties in the Adirondacks or Yellowstone is apparent. Climate and temperature does not affect it.

The Buckwheat Flour is also the finest ever placed upon the market. Every package has my registered trade mark on the side, and also on label on the end.

The rigidly maintained high grade of this Flour, the care taken in having only strictly pure and healthful ingredients used in its preparation, have justly given it the reputation, wherever it has been tried, of being

THE BEST IN THE MARKET.

I am daily in receipt of testimonials of the most flattering character, showing how much this Flour is appreciated by my patrons both in the home and foreign market. No expense in experimenting, securing the best chemical and mechanical skill, or most approved machinery, has been spared to secure this result.

I make no attempt to compete with the low-grade, inferior flour that floods the market, my aim being to produce the BEST only, and put it on the market at as low a price as can be afforded. Insist upon your grocer keeping it for you, as some have objected because it hinders the sale of other flour.

It is put up in 3 and 6 pound packages, each package bearing my registered trade mark on the side and also on the label.
